EDUCATION:

Howard University School of Business, Washington D.C.

B.B.A Computer Information Systems,

May 2017, Honors: Cum laude

WORK EXPERIENCE:

Pricewaterhousecoopers LLP

Applications and Emerging Technology Consultant

July 2017 – Present

- Supported a core transformation project delivering Guidewire Insurance Software
- Developed weekly status reports that were delivered to the CIO and senior management. Reported on any delays in the project timeline and provided suggestions for solutions.
- Served as key contact for client-related questions and issues.
- Developed complex models for resource forecasting, financial management, and tracking dependencies across the project.

Montgomery College

Adjunct Instructor

May 2017 – July 2017

- Taught a personal and small business web development course to continuing education students
- Concentrated on the basic ideology, technologies, and principles of web development.
- Developed course materials on design, basic usability, user experience, and accessibility principles
- Focused on writing valid, well-formed, scalable, and semantically correct HTML5 and CSS

AT Kearney

Experimental Consulting Lab

January 2017 – April 2017

- Created a statistical model to determine optimal inventory levels for commodity components based on historical sales and cost data
- Developed a comprehensive strategy for inventory management that can be scaled across different facilities
- Conducted interviews and participated in weekly meetings with the client
- Developed a web-based dashboard allowing buyers to calculate and visualize recommended inventory levels from forecast spreadsheets

Pricewaterhousecoopers LLP

Technology Consultant Intern

June 2015 – August 2016

- Participated in trainings focused on developing technical skills, public speaking, and ethics
- Worked on a team to build sustainable strategies that helped our client innovate and grow while reducing costs
- Gained exposure to consulting through shadowing in forensics and IT and supporting PwC engagements.
- Participated in technical development exercises focused on knowledge and management
- Engage in continuous coaching with a PwC mentor with topics focused on personal brand, networking, and technical skills

Research Apprentice Program (University of Illinois)

Participant

June 2012 -August 2012

- Learned about the various aspects of product development, manufacturing and marketing
- Made a series of visits and seminars held at various businesses
- Activities emphasized teamwork, problem-solving, computer and presentation skills.
- Worked on team projects co-designed by and co-sponsored by representatives from Kraft Foods Inc., Oscar Mayer, Pioneer Hi-Bred International, PepsiCo and Lincoln Park Zoo.
